movento Bulgaria OOD is establishing a SAP CRM Consultancy Center and striving to build a strong team of experienced ABAP professionals. We care about performance, security and about the quality of our services and implementations.

In this position you will participate in our national and international SAP CRM projects through all the stages of their development. Your main activity will be participating in the development phases, working out technical concepts and their effective application (developing and testing). You will also design potential solutions for the customization and operational implementation of various organizational processes and functions in the area of CRM Sales, Services and Customer Services.

Projects don't run by themselves they require expertise

- University degree in Computer Science or equivalent.
- Min. 2 years of in-depth experience as an ABAP developer.
- Strong background in ABAP/4 and knowledge of any of the SAP modules (SD, ERP, CS).
- Open-minded, willing to explore new areas and provide prototypes fast.
- Excellent communication skills and ability to negotiate and explain technical details.
- Experience with any of the following will be considered an advantage: SAP XI, SAP BI, Middleware, WebDynpro, WebServices and CRM UI.
- Excellent knowledge of English and/or German .

... what do we offer ...

- Challenging projects in different industries
- Friendly work environment with a multinational team of highly-motivated young people.
- Personal development plans and open communication.
- Competitive salary with a flexible work schedule.
- SAP knowledge.
